

ASX and NASDAQ Market Announcement and Media Release

27 March 2019

Genetic Technologies (ASX: GTG; Nasdaq: GENE) Asian operations established in Hainan, China.

Highlights

- **Genetic Technologies establishes Asian operations in China.**
- **The move into Asia includes the formation of Genetic Technologies HK Limited and Hainan Aocheng Genetic Technologies Co. Ltd. In Hong Kong and Hainan, China respectively**
- **Genetic Technologies to gain access to the Chinese health market (1).**

Genetic Technologies Limited (“Company”), a provider of world-leading genetic risk assessment test products is pleased to announce that it has now established its Asian operations within the Hainan Resort Software Community (“HRSC”) Free Trade Zone.

Participants in the Hainan Medical Pilot Zone gain access to the Chinese healthcare market (1). As a part of the HRSC, Genetic Technologies will receive assistance in obtaining China FDA approval for the Company’s new and growing portfolio of genetic risk assessment tests, dramatically fast-tracking the ‘pathway to sales’ process. In addition, as a part of the HRSC, the Company can take advantage of significant tax benefits, subsidies, and facilitated investment.

HRSC market entry support includes:

- Marketing assistance – providing a link with government sectors, hospitals and other Chinese based health enterprises
- Obtaining test samples to undertake new product development specifically for the Chinese ethnic population
- Chinese corporate registry support
- Office space in the Free Trade Zone precinct and complimentary accommodation for GTG staff
- Provision of a Dedicated HRSC Business Development Director (Mr York Yin)

“The Hainan Provincial Government has established a world-class technology zone in Hainan and we are delighted that Genetic Technologies has joined the medical pilot precinct” Mr Yin said.

(1) The Chinese Healthcare market has an estimated value in excess of US\$925 billion – Statista Statistics Portal 2017.

ASX and NASDAQ Market Announcement and Media Release

HRSC is owned by China Electronics Corporation (CEC), a State Owned Enterprise of the China Central Government. The Companies approved to operate in China as part of the Hainan Free Trade Zone Initiative can take advantage of significant tax benefits, subsidies and facilitated investment.

Dr Paul Kasian, Genetic Technologies' Chairman and CEO said, "The establishment of operations in Hainan China is a significant step to advance the adoption of genetic risk assessment tests in China and in due course other parts of Asia. We are grateful for the support we have received from HRSC to date and acknowledge their commitment to continue to work with GTG to provide a meaningful contribution to the Healthy China 2030 Policy."

GTG Chairman and CEO, Dr Paul Kasian (front row, 3rd from left) proudly accepting the formal documentation to establish Genetic Technologies' operations in Hainan, China.

The establishment of operations follows on from the formal invitation to GTG from the Hainan Provincial Government (as announced to the market on 14 August 2018). This announcement referred to GTG forming a joint venture with Zishan for its China initiative, however the joint venture approach will not be progressing at this time. Instead, GTG through its 100% owned subsidiary HAGT with work to introduce its world-class genetic risk assessment tests to the Chinese market.

ASX and NASDAQ Market Announcement and Media Release

Dr Kasian said, “This is likely to include partnering with Chinese health and medical distribution companies and CFDA accredited genetic testing laboratory operations. The HRSC Team will help us find appropriate collaboration partners in mainland China. We hope that GTG’s growing suite of world-leading genetic risk assessment test products will become central to China’s future preventative medicine activities.”

“We hope that GTG’s growing suite of world-leading genetic risk assessment test products will become central to China’s future preventative medicine activities.”
